

Fair Saturday 2019

5 steps to make your event a success

1. Make some noise!

Announce your participation from today until Fair Saturday by sharing the details of your event (name, venue, time...) and also the social cause you will be supporting.

Share it on social media using #FairSaturday. We will help you spread the word!

2. Contact the social project you are supporting!

Coordinate with them the details of your event and work together to publicise both the event and the social cause being supported. Remind them that they will have 5-10 minutes before the event itself starts to introduce their work to the audience.

3. Manifesto

You will receive the greeting-manifesto that will be read in all Fair Saturday events on that day in more than 100 locations around the world. All sharing how thousands of artists are taking part in this movement. Will you join us?

4. Content creating and sharing

Share your Fair Saturday experience using #FairSaturday. Let's fill our social media feeds with arts and culture! We will be also sharing them too, connecting all the events happening around the world.

5. Results

Once Fair Saturday is over, we will like to hear from you how the event went, how many artists took part, estimated number of attendees and social impact generated. Please head to app.fairsaturday.org and fill in the corresponding form.

We will be sharing the global results before December ends, so don't miss out!
